

Science. It's Everywhere.

Want to be amazed?

Science is a source of wonder, excitement, and fascination for children.

Exploring, observing, and thinking about the world around them gives children skills that last a lifetime – skills all children need to make the most of their future.

You can make a big difference for your children's science education:

Learn More:

Call 1 888 737 2061 for a free copy of the Family Guide to Science or click on www.ScienceEverywhere.org

- do science activities around your home
- explore science centers and activities in your community
- make sure there's quality science in your schools

Share the fascination of discovery with your children. You'll be amazed at the difference you can make.

A message from the Partnership for Science Literacy, a program of the American Association for the Advancement of Science. This initiative is funded by the National Science Foundation.
