

Goals Related to Project 2061 Strategy

KNOWLEDGE

Participants should know that . . .

1. Project 2061 believes that changes in curriculum and instruction should be justified by specific learning **goals**.
2. Project 2061 has not produced a curriculum; instead, it is counting on many other groups to design curriculum around the goals.
3. Project 2061 intends to revise its goals, perhaps repeatedly, on the basis of new research and on feedback from educators.
4. Project 2061 intends to provide more tools to help in local curriculum building (e.g., *Resources for Science Literacy*).
5. Project 2061 intends to provide advice about the entire education system, as well as learning goals.

POSSIBLE MISCONCEPTIONS

Project 2061 believes that methods such as curriculum integration, hands-on, or de-tracking should be employed for their own sake.

Project 2061 has local sites that are implementing its curriculum.

Project 2061's goals are complete and final.

Project 2061's focus is only on curriculum reform.
