

Benchmarks On Disk Strand Maps

The screenshot shows the 'Benchmarks on Disk' application window. The title bar reads 'Benchmarks on Disk'. The menu bar includes 'File', 'Edit', 'Window', and 'Help'. The main window has a 'Strands' section with a 'Select Strand:' dropdown menu currently set to 'Flow of Energy in Ecosystems'. Below this, a 'Benchmark' dialog box is open, displaying the following text:

Section E Energy Transformations
Benchmarks for Grades 6-8
Benchmark 1 (of 4)

Energy cannot be created or destroyed, but only changed from one form into another.

The dialog box has three buttons: 'Copy', 'View', and 'OK'. In the background, a diagram is visible with nodes labeled '3', '4.E.4', '4.E.2', '4.E.1', and '5.E.1'. Arrows indicate relationships between these nodes. The '5.E.1' node is highlighted in red. The bottom of the window features a navigation bar with buttons for 'Previous Page', 'Next Page', 'Go Back...', 'View Research', 'Create List', and 'See Also:'.
